

Look what Metke has cooked up this year...

Project Goal... Provide the homeowners with new spaces that will live larger than they do while not expanding the existing footprint of the home, and update the tired, builder-grade materials that had reached the end of their lifespan.

What We Did... Kitchen – Vaulted the ceiling within the existing roof & added skylights; Custom cherry cabinetry with architectural detailing; Granite slab counters with slate & glass back splash; Cable lighting with blown glass pendants; Custom newel posts integrated with the existing wood handrail & iron balusters.

Living & Dining Rooms – New hardwoods & carpet; Removed painted brick fireplace surround & installed limestone tiles with new painted wood mantle; New chandelier.

Family Room – Custom cherry desk with architectural detailing; Removed brick fireplace surround & installed slate and glass tile surround with new cherry mantle; New bronze track lighting; New carpet & slate flooring.

Powder Bath – New plumbing fixtures and vanity cabinet; Slate flooring.

Outdoor – New modular masonry fireplace with cultured stone facing.

Metke did wonders for our home!

“When undergoing a major remodel, you want it done to your expectations, on time and on budget. Metke met and exceeded our expectations in all three areas. Let's face it, a remodel is a huge pain in the butt. I'm not a fixer upper type and really wasn't looking forward to looking at umpteen samples of tile and wondering if it would match the doodad in the next room. The Metke team really took a lot of the pressure off by offering excellent, tasteful suggestions without pushing too hard in one direction or the other, and they delivered with the quality and installation. There were no cost overruns. They said they would be done in 2½ months and they finished it a couple of days ahead of schedule. The result was awesome and every penny we spent was worth it.”

- Chris & Vanessa Owen

Three Recent Kitchens...

Who We Are... For 22 years, Metke Remodeling and Woodworking has been turning dreams into reality and clients into friends. Jeff Metke, President, and his employees have been creating award winning custom remodeling projects, renowned for quality craftsmanship, outstanding service, and long lasting relationships. Daily communication, on site management, an eye focused on the details as well as respect for their remodeling experience help us continually exceed our clients' expectations.

Metke has developed a multi-step approach that has been instrumental in building strong trusting relationships and turning clients into long term friends. Based on an unflinching commitment to communication and a team philosophy, this process helps turn the clients' vision into reality through a process that meets both the creative and budgetary goals of the project.
